CLASSEN®

sensa
laminate flooring

Our Sensa Laminate flooring collection features a wide ranging palette of colour such as the distressed grey hues of Kingler, the dark tones of Tortuna and the light tones of Axala, all with the patented megaloc click system for easy installation.

Sparkled, thrilled, vivid, alive, wild, shape, excited...

Inspired.

What does it mean to live an inspired life?

Quite simply, it is questing for the most vivid experiences, capturing moments of heightened awareness, and shaping life around what will create the most thrilling memories. To live in an excited state of readiness is to believe that the wild rush of freedom can be uncovered around every corner.

After all, what are dreams, but an invitation to be more alive? Your dreams should be the beauty you wake up to, the happiness you come home to, and the gratitude you go to sleep with. Makes sense, then, to build a dream home to house the dreamer.
