

SIKA SCREED BINDER 20KG

Description

Sika Screed Binder is a cementitious binder based on hydraulic binders and special additives to replace cement in conventional aggregate based floor screeds. It provides quick drying indoor and outdoor cementitious screeds with high strength and low shrinkage. Ideal for laying ceramic tiles, natural stones, wood flooring, resilient floor materials and embedding heated screed components. LAYER THICKNESS: 4 to 6 cm thick screeds in residential or industrial environments. CONSUMPTION: 2?2.5 kg/m2 per cm of screed thickness

\$66.90 each
